Josselyn Gooseberry

A Magnificent Success.

It Has No Rival.

Best grower, best foliage and most profitable fruiter, when compared with any other Gooseberry in existence. The freest of all Gooseberries from mildew, both in leaf and fruit.

If you have not the Josselyn you may be sure you have not the best Gooseberry.

The Rochester Lithographing Company of Rochester, N. Y. have lately issued very nice Plates of the Josselyn Gooseberry and are now ready to supply these Plates to Nurserymen.

Prices and conditions for four-page Josselyn Gooseberry circulars, same as for Campbell's Early.

THE SAN JOSE SCALE.

We have never had this pest on our grounds or premises. We believe the best thing we can do with this scale is to KEEP IT OUT. We have followed strenuous methods to accomplish this. We have observed that an easy way to acquire this scale is to exchange stock with "Tom, Dick and Harry." We haven't made an exchange deal for stock in more than fifteen years and don't propose to begin.

Four-Page Circulars

We offer, on condition that those who use these circulars buy from us their supply of Campbell's Early Vines, which they need to fill orders for each delivery after using these circulars, new four-page circulars of Campbell's Early Grape, printed with our new cut (cost \$50) with your name and address in two inch space at bottom of fourth page, at the actual cost of paper and printing, viz:

500 for \$1.00,	1000 for \$1.75,	2000 for \$3.25
5000 for \$7.50,	10000 for \$14.00.	

We will also furnish without charge one colored plate for each plate book, on condition that those who receive these plates buy their stock of Campbell's Early of us while using our plates.

These four-page circulars are a great help and are extensively used by nurserymen and dealers handling Josselyn Gooseberry and Campbell's Early Grape.

Campbell's Early Grape

Planters of this Grape will find herein some very important information on this subject.

Campbell's Early vines are now being bought in large lots by careful, wide awake vineyardists who want a grape which will hang on the vines, will not crack and which will keep and can be marketed at advantageous times instead of having to be forced on the market on some special day to avoid cracking and shelling. These vineyardists want a grape which will bring profitable returns instead of possible losses and which will fill the bill for people who are able and willing to pay a better price for something better in quality than the common kinds of grapes. As more than one-third of the people do not and will not swallow grape seeds, here is another gap which Campbell's Early fills. The fruit of Campbell's Early in our own vineyard has hung on the vines sound and perfect for more than TEN WEEKS after ripening, which fact was observed by numerous vineyardists in our neighborhood. As a good keeper and shipper it is believed to be unequalled by any other grape. Its early ripening is at same time with Moore's Early and at that time the quality of Campbell's Early is fully as good as Moore's Early. After that time the quality of Campbell's Early steadily improves for from two to six weeks, so its season is not only very early but is also medium and late. In short you can pick them from early to late as you choose. It is the best keeper in our entire collection. We have never known a bud of Campbell's Early to be hurt by frost, in our own vineyard they have stood 18 degrees below zero without any injury. Campbell's Early is inclined to overbear, so when this occurs the blossoms (or fruit when small) should be thinned or the vines and fruit will probably suffer in following year.

We have had unpleasant experience resulting from the overbearing of this grape. It is a short jointed variety and in the first bearing year of our vineyard the crop was simply immense. The vines were heavily loaded with large beautiful clusters and feeling we had a larger crop than had ever been seen before on young vines, we invited the principal vineyardists in our vicinity to see for themselves our vineyard. The next year showed that the big crop had weakened and nearly ruined the vines. They made very little

Campbell's Early Grape (Continued)

growth of wood with bunches plenty but small and poorly filled. In short the roots were not old enough and consequently not large enough to carry the immense crop of the preceding year. We were at first considerably disheartened and were almost inclined to pull out and burn all the vines. Fortunately we did not do this as we next season cut off nearly all the blossoms, gave good cultivation and next year we were able from this same vineyard to show at the Pan American bigger bunches and more of them than were shown of any other grape. Next year we had double the wood that we had the previous year. The vineyard is now in elegant condition, I do not know of a thriftier one.

We believe the usual practice of pruning Campbell's Early is to leave too much wood. On old vines we leave only 3 to 4 canes, each 12 to 18 inches long. We use three wires respectively 24 inches, 36 inches and 60 inches from the ground. We train from lower wire, tie to second wire and later in season tie new shoots to top wire.

We showed this grape at the World's Fair at St. Louis in 1904, and Pan-American Exhibition in a (to us) new method. We showed it in plates in the usual way and that those interested might have an opportunity to taste them, we put them in by the hundred baskets. Judging by the number of orders we have received from this way of showing and giving away of the fruit we conclude that we don't care to show fruit in future in any other way.

MEDALS, ETC.

At World's Fair, St. Louis in year 1904 we were awarded the only gold medal given to any individual or firm for out-of-door grown grapes and about ninety per cent of our Exhibition was Campbell's Early.

We were awarded Gold Medal, Silver Medal and Diploma from the Pan-American Exhibition in 1901. Wilder Silver Medal in 1897 also Wilder Silver Medal in 1901 from American Pomological Society. Medal of Excellence from American Institute in 1897.

Campbell's Early has taken First Premiums too numerous to mention and when placed in competition with other varieties, and properly scored, there isn't another black grape in America which can stay in its company.

CERTIFICATE OF INSPECTION.

Every consignment from us will be accompanied by a Certificate from our proper State Authorities stating it is free from all contagious disease or diseases or the San Jose Scale or other dangerously injurious pest or pests.

TERMS AND PARTICULARS.

We grow the largest stock of grape vines in America and offer them graded to our own high standard.

One year No. 2 vines 70 per cent. of rate of one year No. 1. Two years No. 1½ vines, half-way between prices of two years No. 1 and one-year No. 1. Three-years No. 1, one-half additional to price of two-years. We reserve the right, unless otherwise directed, to fill orders for one-year stock with two-years stock of the same size. Also orders for two-years stock with one-year stock of size ordered.

REFERENCES—Dun's or Bradstreet's Commercial Registers, Third National Bank, Buffalo, or any Bank in Fredonia or vicinity.

Our vines are warranted true to name, and of grades represented.

Should any stock not prove true to name, we will either refund the purchase money of same, or replace with stock true to name free, but will not be liable for further damages, and while we are exercising great care to avoid mixtures, the above is to be a condition on which all stock is delivered.

All packing will be done neatly and with strict regard to the interest of the customer. Should any error occur, claim must be made immediately upon receipt of goods by customer. We agree to pack only according to our own methods of packing which methods vary as seasons change. After our stock leaves our care and control we will not be responsible for any damage to stock caused by heat or frost or any other cause whatsoever.

Purchasers will please give shipping directions always. In case no such directions are sent with orders we will use our best judgment in the matter.

Terms Cash:—Bankable notes for 30 to 60 days will be accepted from customers of satisfactory record or bank reference.

Spring accounts are due before June 1st, when we draw at sight for any amounts due. Interest charged on all bills overdue.

All express or freight charges on goods or money must be paid by the customer. If goods are shipped C. O. D., at least one-fourth the amount of the bill must be sent with the order.

We will send to nurserymen or large planters samples of vines at 100 rates with 5 cents postage on three one-year vines, and 10 cents postage on three two-year vines. We cannot do justice in samples unless we send three of each kind and grade wanted.

We commence Spring packing about March 1st. No charge for boxing or packing.

After we have booked orders for stock and have held it against all comers, we shall positively decline to cancel any part of such orders when it is to our disadvantage to do so.
